Question	Answer
How long does it take for me to get my plants	Each plant/seed has its own grow and sow time. It is on a case by case basis. Please reach out as soon as possible to secure an accurate grow time for your plants!
<i>How long have you been doing this?</i>	<i>I grew up along beside my family since the greenhouses opened in 1988. I took over the business and started to custom seed for other farmers, flower farmers, growers in 2017 upon taking over the farm.</i>
Do you guarantee plants?	While we can't guarantee plants, we can guarantee that you will have a product, if a seed doesn't do well with germination we will do our best to match the seed to get you your desired product.
